SUMMARY

Final-year Computer Science student transitioning from web development to data science and machine learning.

TECHNICAL SKILLS

Languages: Python, C++

Libraries: TensorFlow, scikit-learn, Pandas, Numpy, Django **Technologies**: Tableau, VS Code, MS Excel, Google Colab

EXPERIENCE

Data Consultant Sept, 2024 - Oct, 2024

Ixigo 1 month

- Traveled multiple express train routes to monitor, verify, and document real-time train data.
- Worked with Ixigo's engineering team to enhance the app's prediction accuracy.
- Completed 8 extensive trips, spanning routes from Mumbai to Rajasthan and Bihar.

Freelance Web Developer

Nov, 2021 - April, 2024

DevDesignZ.com

2 years, 6 months

- Partnered with content creators to develop their websites.
- Teamed up with other freelance experts to execute end-to-end project solutions.
- Managed full client lifecycle, from initial contact to post-launch support.

Head Of Marketing Team

Jan, 2024 - March, 2024

Coding and Development Club (SIES Nerul)

3 months

- Led a team of juniors in planning and executing marketing campaigns for the club.
- Delegated tasks effectively and motivated team members to achieve goals.
- Fostered a collaborative environment.

EDUCATION

Bachelor of Science in Computer Science

2022 - 2025 (Currently Pursuing)

SIES College of Arts, Commerce & Science (Nerul)

Class XII Science with 86%

2021 - 2022

Kendriya Vidyalaya O.N.G.C Panvel

Class X with 94% 2019 - 2020

Kendriya Vidyalaya O.N.G.C Panvel

PROJECTS

Recognizing Handwritten Digits using TensorFlow | TensorFlow, cv2, Numpy

- Developed a sequential neural network model with 97% accuracy for handwritten digit recognition.
- Provided an in-depth code analysis in the README.md

Analysis of 10 Machine Learning Projects | Scikit-learn, Numpy, Pandas, Seaborn

- Conducted a comprehensive analysis of the machine learning models that I used across various projects, offering a concise overview of each model's functionality and underlying logic.
- Outlined all the key helper functions from pandas, numpy, and seaborn library.

KaylaJaiStoneXX.com | Django

- Developed a Django-based website for a lifestyle influencer, providing a new platform for her to connect and engage with her audience.
- Provided ongoing support and updates, resulting in over a year of continued client satisfaction.
